About The TRAA

Who are we?

- A volunteer organization, governed by a formal constitution and by-laws.
- Formed in 1986 by anglers concerned with the state of the fishery in the Thames River watershed, particularly the dwindling smallmouth bass population in the North Thames River.
- Group of active members who want to be part of the solution for the health of the Thames River watershed and its inhabitants.
- We are a "hands-on" environmental group who likes to work at a grassroots level.

Our mission

Protect, enhance and regenerate a viable, multi-species, year-round fishery.

11.

Promote and participate in environmental clean-up, pollution control and rehabilitation.

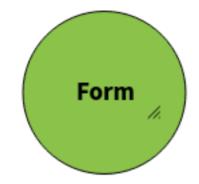

Promote environmentally sound sport fishing practices.

11.

11.

Breed, relocate and stock to reestablish or augment appropriate species of fish.

Form partnerships with community businesses, government agencies, special interest groups, landowners, and other stakeholders in the Thames River watershed.

11.

Increase public awareness of the unique diversity of the Thames River Watershed, its challenges, its recreational opportunities and its vital importance to our community.
